ABOUT OUR HANDBOOK

FOR THE COMPLETE DESCRIPTIONS AND CULTURAL DIRECTIONS OF ALL THE PLANTS IN THIS PRICE LIST, PLEASE CONSULT OUR 1954 HANDBOOK OF ALPINES AND ROCK GARDEN PLANTS. In it we have attempted to give as much information as possible. This information covers complete descriptions including ultimate height and spread, color of flowers, color and texture of foliage, growing habits and some specific uses. It also gives pertinent cultural directions such as type and texture of soil, drainage requirements and exposure preferences. The date 1954 in the title does not mean it is out of date. It was used merely to differentiate from earlier editions of the Handbook. A copy of this book will be of invaluable assistance to you in planning and maintaining your rock garden. You may have one for 50c for the paper cover edition or \$1.00 for the hard cover edition.

BUSINESS HOURS

Visitors are always welcome at our nursery, however we ask you to please note our business hours. We are open from 8 A.M. to 12 Noon and from 1 P.M. to 5 P.M. every day except Sunday and Wednesday. We are closed all day Wednesday and close at Noon on Sunday. If you are driving to the nursery you will find us at the Brick House on the Wappasening Creek Road, midway between Windham and West Warren, Pa., 30 miles southwest of Binghampton, N.Y., 25 miles north of Towanda, Pa., 14 miles east of Sayer, Pa., 8 miles south of Nichols, N.Y. Windham, Pa. is shown on all Pennsylvania road maps but not listed in the directories of the maps.

ROCK PLANT LIST

All the plants in the following list are reasonably hardy, true to name and suited to almost all parts of the United States. Nearly all the plants we send out are pot grown to assure a good root system and lessen the shock of transplanting. A few of the species that do not like pot culture are field grown. All our plants are wrapped individually and carefully with all their roots and soil ball protected in damp peatmoss and waterproof parchment paper. Our plants are never shipped bare root or wrapped five or ten to a bundle. All our plants are young, healthy and "rarin' to go". We never send out old, tired, overgrown messy field clumps.

HEATHERS or CALLUNA VULGARIS

The Heathers are dwarf shrubs of indispensable value for the rock garden both for their neat and attractive evergreen foliage and for their colorful flowers that come in July, August and September when color is most needed. All the varieties listed below are quite hardy and distinct either in habit of growth or in color of flower. They all require an acid leafmold soil and at least four hours of full sun during the growing season. In the north it is recommended that they be mulched with pine needles at the base of the plant and covered over with straw or evergreen boughs to prevent dehydration. They will withstand 30 degrees below zero in ideal conditions.

DAPHNE CNEORUM

The lovely garland flower. 12 inch high masses of attractive foliage on decumbent branches topped with clusters of very fragrant, clear pink flowers in May and again in September. The plants offered here are 6" to 8" in diameter, balled and burlaped. In the far north it should be protected in winter with a heavy mulch of pine needles or peatmoss and covered over with straw or evergreen boughs to prevent dehydration.

THE WONDERFUL HEATHS

Like the Callunas, the Ericas are adorable dwarf evergreen shrubs of innumerable uses. All the species and varieties are distinct either in habit of growth or in color of flower and period of bloom. They offer a good range of color and a long blooming season, extending from November right through the winter and spring months and also through the summer to the end of September. They all require an acid leafmold soil in fairly good sun. They are fine planted with the Callunas and other ericaceous plants. In the north they should be mulched with pine needles or peatmoss and covered over with straw or evergreen boughs in the winter to prevent dehydration.

THE BRIGHT SUN ROSES

The Sun Roses or Helianthemums are low growing evergreen shrubs that are unexcelled for masses of bright flowers through the months of May, June and July. They succeed in a light, well-drained soil in full sun. Although sometimes they burn back in winter, they quickly recover and astonish you with their prolific display of gaiety.

VIOLA CORNUTA BLUETTE

The best of the large flowered perennial violas. An offspring of the old favorite Jersey Gem. It is thoroughly hardy, compact and long blooming. Very large deep violet-blue flowers from early spring to early winter. Easy in a good garden soil in sun or light shade. It should be mulched in the hot summer to keep it flowering.

25 for \$10.00

WALDSTEINIA FRAGARIOIDES50 3—\$ 1.40 12—\$ 5.45

WE RESERVE THE RIGHT TO SUBSTITUTE PLANTS OF EQUAL OR GREATER VALUE IN ALL COLLECTIONS OFFERED. THREE OF A KIND PRICES APPLY ONLY TO THREE PLANTS OF THE SAME VARIETY.

COLLECTIONS OF PLANTS FOR ROCK GARDENS, WALLS AND WALKS

A most economical way for beginners in rock gardening to accumulate a good assortment of desirable plants is to order these low priced special collections. THEY WILL CONSIST OF OUR OWN SELECTIONS IN ALL CASES. Please state if they are to be used in planting a rock garden, dry or retaining wall or flagstone walk. Also state if they are to be used in sun, shade or mixed exposure. All the plants included in these collections will be dependably hardy and will be chosen for their flower and foliage qualities. Many of the higher priced plants will be included.

FOR COMPLETE DESCRIPTIONS PLEASE CONSULT HANDBOOK

DWARF CONIFERS

All the dwarf trees offered here are young plants from two to four years old and do not yet represent their ultimate size or aspect. With the exception of the *Juniperus horizontalis* varieties they are all extremely dwarf and very slow growing kinds that will develop into very neat and compact, exceedingly attractive conical and globose forms. The *Juniper horizontalis* varieties are somewhat faster growers that develop into lovely prostrate ground covers. Most of these small trees are now in our nursery and will be shipped with any other plants you order. Some we have contracted to buy and will be shipped subject to our receiving them in good condition. The sizes range from two to ten or more inches, according to variety, growing habit and age. Most are of the right size for planting in miniature or sink gardens which are becoming very popular. These dwarfs are hard to come by so we urge you to order them now and have the pleasure of watching them develop in your own gardens.

PLEASE INDICATE SOME ALTERNATE SELECTIONS ON THESE CONIFERS. WE MAY NOT BE ABLE TO MEET THE DEMAND FOR ALL OF THEM.

FOR COMPLETE DESCRIPTIONS PLEASE CONSULT HANDBOOK.

TERMS AND CONDITIONS

This price list cancels all previous catalogues, lists, advertisements and special offers. Prices in this list are subject to change without notice. All plants in this list are offered subject to prior sale and crop failures beyond our control.

MINIMUM ORDER \$3.00. The minimum order we can possibly handle is \$3.00. If you desire only one or two plants please remit the minimum \$3.00 unless it is an addition to an order not yet shipped.

CASH WITH ORDER. All orders must be accompanied with remittance which may be made by check, Postal Money Order or cash when letters are registered. Under no circumstances will we be responsible for money lost in the mails. Please make checks payable to MAYFAIR NURSERIES. If your bank does not pay at par be sure to add a sufficient amount to cover your bank's charges.

SHIPMENT. All orders will be shipped at the purchaser's expense via Railway Express, charges collect. IF PARCEL POST SHIPMENT IS DESIRED, PLEASE ADD A SUFFICIENT AMOUNT TO YOUR REMITTANCE TO COVER POSTAGE. If there is an excess it will be returned to you. In estimating your postage it may be helpful to consider the following: Add 15% of your order for Postals Zones 1 and 2; 20% for Zones 3 and 4; 25% for Zones 5 and 6; 30% for Zones 7 and 8. The minimum Railway Express rate is about \$2.15 therefore it would be more economical to send small packages by Parcel Post. All our Parcel Post shipments are insured for safe arrival by the Hartford Fire Insurance Company.

REFUND AND SUBSTITUTION. It is impossible to maintain an adequate stock of every variety to meet the ever increasing demand for our plants. In the event we are sold out of a variety we shall send a substitute, refund or hold on order according to your instructions. If we receive no instructions we shall hold on order until again available or hold your credit for a future order. PLEASE SEND US A LIST OF A FEW ALTERNATE SELECTIONS TO HELP US EXECUTE YOUR ORDERS QUICKLY.

GUARANTEE. We guarantee that all plants will reach you in good condition in continental United States. There our responsibility ends. We cannot guarantee that you will be able to grow some of the difficult items contained in this list or that they will survive in the location you plant them. We believe all plants are true to name and description and all are properly labeled. If any mistakes occur, please let us know and we shall be glad to make the proper adjustments. If any plants are damaged in transit please rush us all particulars immediately so that we can present our claims to the forwarding company. WE SHALL NOT BE RESPONSIBLE FOR LOSS OR DAMAGE TO ANY PLANTS BECAUSE OF STRIKES OR ACTS OF VIOLENCE.

PENNSYLVANIA RESIDENTS MUST ADD 3% SALES TAX.
